Frontend Team Leadership

Next.js Production Apps

AI Product UI

Multi-role Dashboards

SEO & Performance

CI/CD & Deployment Exposure

Clean Architecture

EXPERIENCE

Senior Front-end Developer - Ofogh Pazhoheshgaran Badi Jul 2025 - Mar 2026 | Tehran

- Led frontend development for **Fixino** and **Anashid**, owning UI architecture, task planning, code quality and feature delivery.
- Built approximately **80% of Fixino's frontend**, including multi-role workflows for drivers, mechanics, tow trucks and admins.
- Implemented accident-reporting flows, nearby mechanic requests, pricing coordination and role-based dashboards using Next.js and TypeScript.
- Built approximately **70% of Anashid's frontend**, including AI chat, admin dashboard, sidebar flows and model library interfaces.
- Integrated backend APIs, optimized SEO/performance and supported deployment workflows for production releases.

Front-end Freelancer Oct 2024 - Jul 2025

- Designed and implemented real-time UI modules for FiveM servers, including Inventory, HUD and interactive in-game components.
- Built responsive interfaces optimized for real-time environments and collaborated with backend/server-side logic teams.

Front-end Developer - Asman Soye Parsian Dec 2023 - Oct 2024 | Tehran

- Completed a specialized internship and joined the development team after the program.
- Contributed to operational dashboards for a transportation company with complex business logic and sensitive data flows.
- Improved route and sub-route structures and implemented precise calculations to reduce system-level errors.
- Applied clean code and modular UI structure while working with large, business-critical datasets.

SELECTED PROJECTS

LoveVault - Couple Platform | WEBSITE | IMAGES

Next.js, TypeScript, TailwindCSS, Node.js, Express, MongoDB, CI/CD, Deployment

- Built **100%** of the product independently: frontend, backend, authentication, admin panel, deployment and infrastructure setup.
- Designed secure couple-based identity, vault management, gamification flows and admin monitoring features.

Fixino - Accident Management Platform | WEBSITE | IMAGES

Next.js, TypeScript, TailwindCSS, SEO, CI/CD, Deployment

- Delivered around **80%** of the frontend in a two-person project team, focusing on multi-role UI, SEO and production deployment.

Anashid - AI Platform | IMAGES

Next.js, TypeScript, TailwindCSS, Streaming UI, API Integration

- Delivered around **70%** of the frontend in a two-person project team, including streaming chat, conversation history and admin interfaces.
